## Board of Trustees Meeting of January 26, 2022 IT Report

---

### **Web Based Policy Renewal Application**

The IT department is working on a web based renewal application for the brokers and members to use. This will streamline our renewal processes and help our underwriters, brokers, and members. We will be pulling data into this new application from the prior year's renewal and allowing the members and brokers to approve or change any information. This should simplify the entire application renewal process. This web based renewal application will be available on NJSIG's website and accessible through the members and brokers logging in with multifactor authentication. We hope to have the new application ready for the 23/24 renewal.

### **Quarterly Loss Runs**

As of January 14, 2022 all quarterly loss runs were sent out to members and brokers.

Jeffrey Cook
