Board of Trustees Meeting of September 18, 2019 Underwriting Report

We are pleased to announce the promotion of Carol Conniff from Commercial Underwriter to Senior Commercial Underwriter. Carol is a dedicated team member and an asset to the department.

All 19-20 invoices and policy documentation have been issued to the membership. Property appraisals for the next cycle of approximately 70 members are in progress and should be completed by December. The 19-20 jurisdictional boiler inspection program provided to members by our equipment breakdown reinsurer is also underway and will continue throughout the program year.

We are working with our Willis consultants on preliminary 20-21 renewal strategy and scheduling in-person meetings with several of our reinsurers. Additionally, I will be working closely with our in-house Actuarial Analyst over the next few months reviewing member contribution and loss data on the major coverage lines and developing our 20-21 underwriting strategy.

The Underwriting Department staff will be dedicating time over the next several months to insurance license continuing education and other professional development.

Claire A. King, J.D., AIC
Underwriting Manager
