Board of Trustees Meeting of May 20, 2015 Information Technology Report

STARS Audit Module

We have received the proposal from STARS for the audit module. The cost is about \$20,000, which is less than we expected. We will begin working with STARS to setup the module so the Loss Control Department can begin using the module for inspections and recommendations.

Broker Meeting

On April 22, 2015, I presented the valued added service of “Remote Access to our Claims Management System”. Since the broker meeting, about 15 requests have been received for remote access to our system. The brokers have been setup in our system to view their client’s claims.

QBE/Summit E & O TPA

We have had a discussion about data feeds and new claim notifications with the IT staff at Summit. We should be receiving sample data files in the next week or so, we will test the feeds and resolve any issues prior to 7/1. We are looking for an acknowledgment letter with claim information so we can setup the claims in our STARS system, and a data feed for the financial information on monthly bases.
